

ASPCA Animal Poison Control Center APP

The ASPCA Animal Poison Control Center (APCC) free mobile app provides a wealth of knowledge in the palm of your hand. With quick access to potentially life-saving information and the hotline 24/7/365, the ASPCA APCC app helps keep your pet safe year-round. The ASPCA is dedicated to helping you and your pet.

With just a few swipes, you can:

- Gather critical information on substances that may be harmful to your pet based on their species.
- Easily select which item you are searching for in the quick selection menu.
- Gain complete access to colorful images for easy identification, level of toxicity, side effects, and actions to take for each item listed.
- Complete access to our chocolate wheel and rodenticide, quickly helping you determine the level of severity for your pet if these substances are consumed.
- Quickly contact the 24/7/365 hotline number, with full access to specially trained veterinary staff and toxicologists in a click of a button.

App is available on:
